“Cheryl was very positive and she made our team feel excited to receive new information. She didn’t make too many assumptions or make people question if they should be using their skills someplace else, but focused on more of a ‘how can I use these skills more in the position I’m in’ mindset, which was great for our small team.”

- Dr. Emily Willett, Owner & Orthodontist, Lincoln Orthodontics

“Cheryl has a unique knack for reading people. She is so easy to talk to and she can pull out ideas that you didn’t know you had. I have done other coaching sessions with Cheryl, and she has made a big impact on me and my business. I would hire her again and will certainly recommend her to my colleagues.”
